PCE/TCE

Successful Pilot Study

2 shallow, 2 intermediate groundwater zones

Full Scale System

38 shallow, 53 Intermediate GW zones

- Fully enclosed 50 lb per day ozone trailer
- 100 point valve manifold, valve banks programmable via HMI
- Control panels to be UL certified
- Intelo-zone[®] control logic theory

Necessary Experience

- Bidder must have built a system larger than 25 lb per day
- Controls must be built in house
- Bidder must provide 3 reference projects
